

GARTMORE HERITAGE SOCIETY PRESENTS

A UNIQUE WORLD RECORD

Winter 282:

The Munros in Winter

Black Bull Inn, Gartmore.

Tuesday 15th February

7.30pm for an 8pm start - £5

From December 2019 to March 2020 Glasgow's Kevin Woods climbed all of Scotland's 282 Munros in a single winter season. This unique World Record is the fastest ever winter completion of an incredible journey which takes in around 2,000km of mountain terrain - pairing the demands of exhausting, long distance walking with Scotland's biting winter weather.

With no let-up in the hostile conditions, and with the Covid-19 pandemic of 2020 catching up with him, Kevin was close to not finishing at all. However, just three months after starting out, and standing on Ben Lomond, he accomplished his astonishing vision which he had been relentlessly working towards for years.
